修改资料功能测试：

会在两个情况下测试：

一个为 admin 超级管理员，另外为普通用户

系统中已经存在名字分别为 admin，test，foo 的三个用户

{name:"admin",password:"admin",email:"admin",phone:"admin"}

{name:"test",password:"test",email:"test",phone:"test"}

{name:"foo",password:"foo",email:"foo",phone:"foo"}

1.在超级管理员下修改普通用户

[Change user file] You are admin, you can change any user's file.

[Change user file] [user name] [password] [email] [phone]

[Change user file] admin x x x

[Change user file] succeed!

修改自己

[Change user file] You are admin, you can change any user's file.

[Change user file] [user name] [password] [email] [phone]

[Change user file] x x x x

[error] Change user file fail!

用户 x 不存在

[Change user file] You are admin, you can change any user's file.

[Change user file] [user name] [password] [email] [phone]

[Change user file] test 123 123 123

[Change user file] succeed!

修改 test

2.在普通用户 test 下修改用户

用户尝试使用别的名字修改资料：

[Change user file] [user name] [password] [email] [phone]

[Change user file] admin 123 123 123

[error] Change user file fail!

[Change user file] [user name] [password] [email] [phone]

[Change user file] foo bar bar bar

[error] Change user file fail!

[Change user file] [user name] [password] [email] [phone]

[Change user file] test foo foo foo

[Change user file] succeed!

超级管理员

测试查看所有会议:

Agenda@admin ： # la

[List All Meetings]

Title	Sponsor	Participator	Start time	End time
ooo	test	foo	2000-10-10/12:12	2001-01-01/12:00
gotest	foo	test	2002-01-01/01:10	2003-02-02/01:00

测试查询会议

Agenda@admin ： # qm

[query meeting] You are admin, you can query all meetings.

[query meeting] [title]

[query meeting] gotest

Title	Sponsor	Participator	Start time	End time
gotest	foo	test	2002-01-01/01:10	2003-02-02/01:00

测试按照时间段查看会议

Agenda@admin ： # qt

[query meeting] You are admin, you can query all meetings.

[query meeting] [start time<yyyy-mm-dd/hh:mm>] [end time<yyyy-mm-dd/hh:mm>]

[query meeting] 1999-01-01/12:00 2010-01-01/12::

Title	Sponsor	Participator	Start time	End time
ooo	test	foo	2000-10-10/12:12	2001-01-01/12:00
gotest	foo	test	2002-01-01/01:10	2003-02-02/01:00

测试删除所有会议

Agenda@admin ： # da

[delete all meetings] succeed!

-----------------------------Agenda-----------------------------

Hello, admin, What do you want to do?

There are 0 meeting in total.

There are 3 user in total.
